

OEM & Wholesale Engine Coolant Thermostat Supplier

COMPANY PROFILE

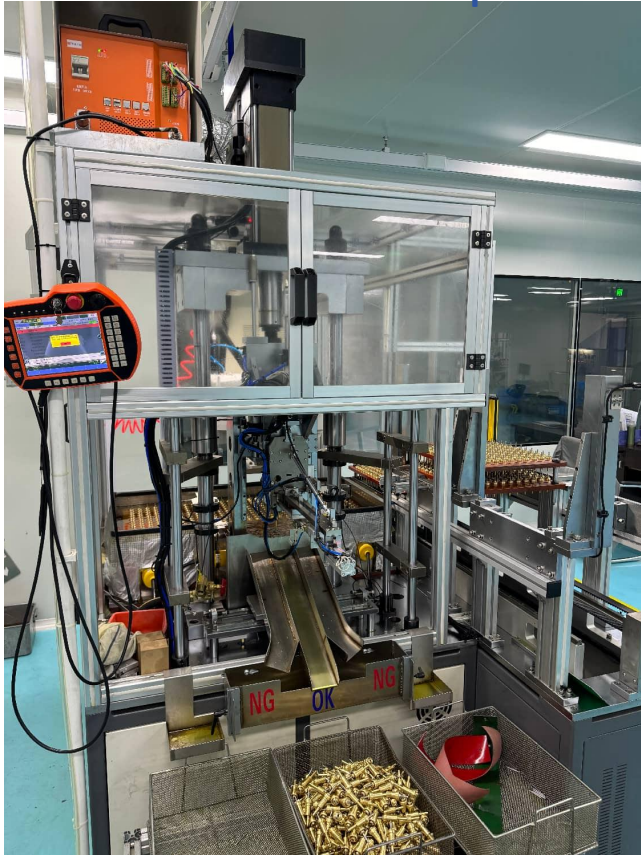

Elecdura is a professional supplier of coolant thermostats, dedicated to providing reliable cooling system solutions for global aftermarket and OEM customers. Backed by experienced manufacturing partners and a stable supply chain, we offer a wide range of mechanical and electronic thermostats covering *passenger cars, light commercial vehicles, and selected industrial applications.*

Our thermostat products are designed and manufactured to meet OEM specifications, with strict control over temperature accuracy, material quality, and long-term durability. From *wax-element thermostats to integrated thermostat housing assemblies*, Elecdura supports both standard replacement parts and customized development based on customer requirements.

With a strong focus on B2B cooperation, we support *bulk orders, private labeling, and OEM projects*, helping distributors, wholesalers, and importers improve supply stability and market competitiveness. Through consistent quality, flexible production capacity, and responsive technical support, Elecdura aims to be a long-term and trustworthy partner in the global automotive cooling system market.

FACTORY

Automated Production Capabilities

Elecdura uses advanced automated equipment for high-precision manufacturing and stable, large-volume production of automotive components. Our modern assembly lines and strict quality control ensure reliable, OEM-standard products for global distributors and wholesale partners.

Elecdura's spacious warehouse and organized inventory ensure fast, stable, and large-volume deliveries, supporting global distributors and wholesale partners with consistent supply.

Extensive Mold Library and Development Capability

Our fully equipped mold workshop supports a wide range of automotive components, enabling rapid product development and customized solutions for OEM and wholesale partners.

Large-Scale Warehouse & Reliable Supply

FACTORY

Multi-Stage Quality Inspection

Each finished product undergoes multiple inspection stages before shipment, ensuring every critical process meets our quality standards. This segmented inspection system results in a consistently low defect rate and provides reliable performance for our customers in the aftermarket.
